Have been advised that the hydraulic tank on one of the compactors is leaking and should be replaced. The board will go look at the hydraulic tank and will revisit as to what the next steps will be to get it repaired. **4-3: Leavitt Institute:** The Leavitt Institute board met on Monday, November 10, and approved a proposal for electrical repairs. The board also are tightening up the rules on the Community Room and adjusting rental rates. **4-4: Town House:** Have had two contractors look at the Town House to look at the chimney, which has buckled. The recommendation is to rebuild the chimney on an appropriate basis. Linda Poland is going to contact Keith Milliott to see if he might be able to help out with this project.
